Monthly Bookkeeping Report: September 2026

SAMPLE DATA: fictional business and figures, for demonstration only. Not a real client.

Client: "Sample Rentals & Bar" (fictional) | Prepared by Caristo Mulenga, CayTech Digital Solutions | 30 Sep 2026

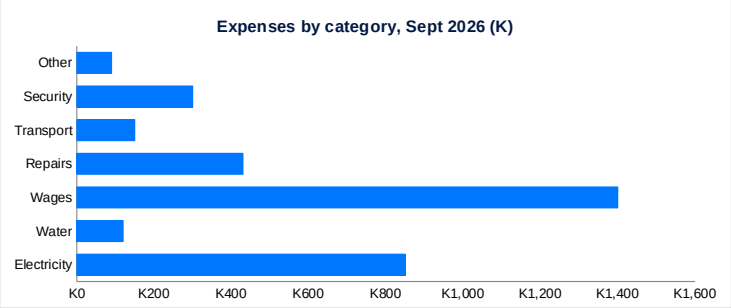

Basis: management report, earned basis (see Basis and assumptions below). Not an audit.

1. Profit for the month	Sep 2026	Aug 2026	Change
Rent due	K5,400	K5,400	K0
Bar sales (from stock movement)	K11,992	K10,850	+K1,142
Less: cost of bar sales	K7,664	K6,950	+K714
Less: operating expenses	K3,340	K3,120	+K220
Less: unexplained bar shortfall	K572	K150	+K422
NET PROFIT	**K5,816**	**K6,030**	**-K214**

2. Key indicators	Sep 2026	Aug 2026	Change
Rent collected	K4,000	K4,900	-K900
Rent collection rate	74%	91%	-16.7%
Rent owing at month end (all tenants)	K1,900	K500	+K1,400
Bar gross margin	36%	36%	+0.1%
Bar shortfall as % of bar sales	4.8%	1.4%	+3.4%

3. From profit to cash			
Net profit	K5,816		
Less: increase in rent owed (earned, not yet received)	K1,400		
Less: stock bought but not yet sold	K604		
Cash movement for the month	**K3,812**		
Check against cash sheet	Agrees		
Closing balance per records, 30 Sept	K6,812		
Closing balance per statements	K6,780		
Reconciliation status	**Reconciled**		

4. Operating expenses by category	Sep 2026	Aug 2026	Change
Electricity	K850	K800	+K50
Water	K120	K120	K0
Wages	K1,400	K1,400	K0
Repairs	K430	K300	+K130
Transport	K150	K150	K0
Security	K300	K300	K0
Other	K90	K50	+K40
Total operating expenses	**K3,340**	**K3,120**	**+K220**

5. Findings and recommendations

1. Bar takings are K572 (4.8% of sales) below what the stock movement says was sold, up from K150 last month. That is about 26 bottles of lager. Recommendation: for two weeks, count stock weekly and match takings to sales every day before drawing conclusions. Breakages, free drinks and unrecorded credit are common causes.

2. Rent collection fell from 91% to 74%. Tenant E owes K1,500 (2 months). Recommendation: give written notice and agree a payment plan now; arrears are easiest to recover before they reach a third month.

3. Profit is K5,816 but cash rose by only K3,812. K1,400 is rent not yet paid and K604 is stock bought but not yet sold. Recommendation: judge the business on profit and cash together, and do not spend profit that is still sitting in arrears or on the shelf.

6. Basis and assumptions

Basis: management report on an earned basis. Rent is counted when due, bar sales from stock movement, costs when incurred. Cash is shown separately in section 3 and on the Cash & Reconciliation sheet.

This is not an audit or a tax return. It is prepared from records supplied by the client and not independently verified. ZRA tax matters are outside this report.

Assumptions: all rooms billed on the 1st; stock counted by the client on the last day of the month; selling prices unchanged during the month; bar takings are cash plus mobile money only (no credit sales).

Each month I need: rent receipts, stock counts, daily takings, supplier invoices, expense receipts and bank / mobile money statements. See About & Process.
